

## Train 45 (Heading South)

B  
Well I thought I heard that train, oh how did she did blow

B F# B  
She blowed like she never blowed before

B  
You oughta been downtown, and seen that train come down

B F# B

You can hear the whistle blow 100 miles

I'm working in time with tears in my eyes  
I'm trying to read the letter from my home  
If my woman says so, I'm never gonna work no more  
Gonna sidetrack my train and go home

If the train runs round, I'll see my woman saturday night  
I'm tired of living this a-way  
Well I thought I heard that train, oh how did she did blow  
She blowed like she never blow no more

Well I thought I heard that train, oh how did she did blow  
She blowed like she never blow no more

*Solos out*
