

Mountain Song

B

Way up on the mountain In the sweet southern air

E

B

Is where I seem to lose loads I have to bear

B

Silence of the snow fall and the peacefulness around

E

B

I feel so blessed with all that I have found

E

B

I feel so blessed with all that I have found

E

Holler in the moonlight

E

B

Sip the mountain shine

E

The sound of the music playin'

E

B

Everything so fine

Lookin' up a trail for a sign as I travel there

A liquor still, an old deer trail, or the home of a big old bear

Wouldn't want to mess with him because it is his home

He's like me he's better left alone

He's like me he's better left alone

Chorus

Fishin' in the river at the bottom of these hills

Helps me find my peace of mind In all these natural frills

These mountains were the first to show their face up to the sky

Lay me to rest here when I die

Lay me to rest here when I die

Chorus then "Lay me to rest here when I die" x3
